Ambitions of RAPID

- What your next steps should be
 - Contact your potential launching customer(s)
 - Market access plan
- How your product / idea:
 - Fit the healthcare market in Utrecht
 - Could be reimbursed by Health insurer
 - Could fit the business of health organisation
- What you need to do to
 - Validate for medical use
 - To convince your potential launching customer
- What the possibilities are for getting Euro's (VC/subsidies/BA/..)

Let's talk business !

“The Rapid Health program helps prepare startup companies in a professional manner and create precious business opportunities from their network. Through the network of the program, which increases the chance of collaborating with quality Dutch partners. As a business developer, I must say this is an ideal program for startups to explore and participate in.” –

**Wayne Hou,
