

2019 Taiwan Ophthalmic Forum

With the strength of the ICT/optical technology, and great scale of manufacturing capability, Taiwan has been positioned as a strong leader in device product development. Armed with the excellent medical research environment, ophthalmic device manufactures in Taiwan deliver the best opportunity for your future ophthalmic device.

To better understand and take advantage of the coming business opportunity with Taiwan ophthalmology development, Industrial Technology Research Institute (ITRI) will hold the "2019 Taiwan Ophthalmic Forum" to bridge the local manufacturers and product/service providers to international partners and research organizations with the most innovative and state-of-the-art ophthalmic devices.

You are cordially invited to attend this great event and jump into the fast growing ophthalmic industry with the latest technology at your hands.

- Date / Time: October 14, 2019 15:30~17:30
- Venue: ALX by Alexander's Steakhouse
(Address: 680 Folsom St, San Francisco)
- Agenda:

Time	Event	Speaker
15:30~16:00	Registration	
16:00~16:05	Opening	
16:05~16:25	Silicon Valley leads the trend of medical industry	Sean Wang President of ITRI International Inc.(USA)
16:25~17:00	Products introduction : 1. Iridium Medical Technology Co., Ltd ■ HARP-High Acuity Retinal Prosthesis 2. Medimaging Integrated Solution Inc. (MiiS)	Mei-Jane Hsieh / Chairwoman Stefan Cheng / CEO

	<ul style="list-style-type: none"> ■ Horus Scope™ Total Eye Care Solution ■ AI DR Screening Solution <p>3. Safetran BioMedical Inc.</p> <ul style="list-style-type: none"> ■ Rhea Autologous Bioactive Molecules Enrich System 	Sabina Juan / Marketing Specialist
17:00~17:30	Networking

Product introduction:

Medimaging Integrated Solution Inc.

<http://www.miis.com.tw/>

Product: Horus Digital Eye Care Diagnostic Set

Certification: CE, FDA, ISO, TFDA

Feature:

- Avoid unnecessary mydriatic medications and side effects.
- Improve quality and efficiency of making the rounds and even reach those in remote areas.
- Acquire additional stability with a special adapter attached to slit lamp.

Safetran BioMedical Inc.

<http://www.safetran.com.tw/index.html>

Product: Rhea Autologous Bioactive Molecules Enrich System

Certification: CE, TFDA, FDA applying

Feature:

- New solution for dry eye syndrome and cornea ulcer
- Automatic preparation of consistent autologous Bioactive molecules enrichments
- Closed system
- Precision collection
- Efficiency: total process within 8 minutes.

Product: HARP-High Acuity Retinal Prosthesis

Certification: clinical trial

Iridium Medical has grasped the key and patented technologies to effectively interface between electrodes to neurons. Its high-Acuity retinal prosthesis includes the following innovative technologies:

Feature:

- Microelectrode Technology with high granularity and efficiency
- Electronic Passivation Technology that is biocompatible and implantable
- Non-planar Electronics and Flexible Technology interfacing soft tissue
- Spherical Imaging Technology
- Biomimetics Artificial Neural Network Technology

Taiwan Eye & Vision Care Industry Platform is a joint effort between Industrial Technology Research Institute (ITRI) and the ophthalmic device industries. The establishment goal is to enhance the value of a product by making it more appropriate for clinical use, through effective lateral communication between the industry and clinicians. In the near future, this platform will assist domestic companies to promote collaboration and branding at an international level, paving the way towards new sales channels in overseas market.
