Profile of Taiwan High-Tech Companies

Business Demand

No	COMPANY NAME	DEMAND FOR MATCHING
1	ANDES	Look for partners in ADAS VEDR, telehealth, smart home,
	Technology	wireless charging, AI application, video recognition,
		drone.
2	DAVICOM	Look for partners in smart tag, intelligent POS system in
	Semiconductor	super market.
3	Etron Technology	Look for partners in 3D panoramic image system applied
		for auto drive, face recognition and drone, as well as the
		integration between USB3.0 and USB Type-C.
4	J-MEX	Look for partners in sensing gloves, sensing ring, sensing
		clothes and shoes. Otherwise, J-MEX creates application
		in fitness tracking and body movement.
5	Faraday	Look for partners in in the application of autopilot, 360
	Technology	panorama, and large display system.
6	ProMOS	Look for partners in in customized wireless module,
	Technology	Bluetooth module, GPS module, Sub-GHz module,
		BLE+wifi module and application of sport center.
7	Eminent	Look for partners in 3D facial recognition, the application
	Electronic	combined with AR/VR and gesture recognition, color
	Technology	sensors and smart home application.
8		Look for partners in HD and Ultra-HD intelligent cameras,
	Ambarella, Inc.	advanced driver assistance systems (ADAS), and fully
		autonomous vehicles.
9		Look for partners in communication device, remote
	Generalplus	controller, interactive toy, electronic-pet, wearable
	Technology Inc.	devices, dashboard camcorder, drone camcorder,
		wireless charger, calculator, kids learning aid, touch-
		control appliance, motor bike, and many others.
10	Asuka	Look for partners in in-car application including DVB-T,
	Autotronics Inc.	DVB-T2,CMMB/DTMB, ISDB-T, DAB+, Film Antennas and
		driving recorder.

Company Profile

1. ANDES Technology

Description	Andes develops 32/64 bit processors and SoC platform for
	embedded system.
Core	AndesCores range from highly performance-efficient small-
Technology	footprint cores for microcontrollers and deeply-embedded
	applications to 1GHz+ cores running Linux, covering general-
	purpose N-series cores for a wide range of computing need, DSP-
	capable D-series cores for digital signal control, instruction-
	extensible E-series cores for application-specific acceleration, and
	secure S-series cores for best protection of the most valuable.
Looking for	Those are interesting in ADAS VEDR, telehealth, smart home,
Partners	wireless charging, AI application, video recognition, drone. Andes
	can provide IC and solution technology for them.

Remark	Processor Architecture Andestar™ AndesCore™ AndesCor
Wish list	NXP/Bosch/Schneider

2. DAVICOM Semiconductor

Description	DAVICOM produces communication and network IC, as well as the
	chipset in LAN, WAN, PC and internet.
Core	DAVICOM has already developed over 20 digital & analog products
Technology	and applied for Several IPs, and has successfully become one of the
	leading IC design houses in Taiwan.
Looking for	Those are interesting in smart tag, intelligent POS system in super

Partners	market. DAVICOM can provide total solution for them.

Remark	Applications of IoT Blood Pressure Monitors Sports Watches
	S339.75 College of the state o
	遠距照護 Multi-port fax system TeleHealth Care Hearing AMP
Wish list	Super/Hyper-Market
	-Netherlands/Albert Heijin, Jumpo, Plus
	-France/Intermarche, Auchan, Carrefour
	-UK/Aldi, Asda, Co-op
	Health/Beauty Chain Store
	-Netherlands/Kruidvat, Ahold, D.I.O. Drogist
	-France/Yves Rocher, Sephora, Beauty Success
	-UK/Boots, TESCO, Superdrug

3. Etron Technology

Description	Etron offers cutting-edge Known-Good-Die-Memory (KGDM) and
	Consumer Electronic DRAM (CEDRAM)
Core	Etron's premium quality integrated circuits are widely used in
Technology	various emerging applications, such as storage device, display,
	handset, PDA, and multimedia device.
Looking for	Those are interesting in 3D panoramic image system applied for
Partners	auto drive, face recognition and drone, as well as the integration
	between USB3.0 and USB Type-C.

4. J-MEX		
Description	J-MEX focuses on developing patent sensing algorithms and	
	related motion sensing technology.	
Core	J-MEX has key technology in velocity sensing, dimensional and	
Technology	gesture sensing, motion sensing, and Angle sensing.	
Looking for	Those are interesting in sensing gloves, sensing ring, sensing	
Partners	clothes and shoes. Otherwise, J-MEX creates application in fitness	
	tracking and body movement.	
Website	https://jmex.com.tw	
Remark	Auto Sensing Rear Light Auto Sensing Rear Light 3 Axis/6 Axis /multi-axis solution	

5. Faraday Technology

Description Faraday Te	nnology Corporation is a leading fabless ASIC / SoC and
------------------------	---

	silicon IP (intellectual property) provider, ranking in top 50 fabless	
	IC suppliers in the world and top 10 in Taiwan.	
Core	Faraday is one of the few leading ASIC / SoC vendors with a	
Technology	comprehensive self-developed IP portfolio. Faraday's flexible and	
	robust service and solution platform can be customized to fit	
	customers' unique business needs.	
Looking for	Those are interesting in the application of autopilot, 360 panorama	
Partners	, and large display system. Faraday can provide total solution for	
	customers.

6. ProMOS Technology

	. Homes reclinedly		
Description	ProMOS has experience in high level Information System		
	Integration, and is capable of Design / Management / Service total		
	solutions. Their solutions include customized Memory Products,		
	high quality Industry 4.0, IoT, and System Integration Services.		
Core	ProMOS has a fab plant-level high-end ICT integration technology		
Technology	and experience with sophisticated design, manufacturing,		
	management and solutions capabilities.		
Looking for	Those are interesting in customized wireless module, Bluetooth		
Partners	module, GPS module, Sub-GHz module, BLE+wifi module and		
	application of sport center. They can collaborate with partners in		
	Memory products design, manufacturing, field application,		
	assembly engineering and quality assurance.

7. Eminent Electronic Technology

Description	Eminent Electronic Technology Corporation is a sensor technology
	provider in smart phones, tablet PC, notebook PC, TV, and smart
	homes. Their sensor technology enhance human device
	interaction in mobile applications, and to enable IOT sensor
	networks.
Core	Eminent focuses on the manufacturing and customized design of
Technology	ambient light sensor, proximity sensor, heart rate monitor sensor,
	and gesture sensor.
Looking for	Those are interesting in 3D facial recognition, the application

Partners	combined with AR/VR and gesture recognition, color sensors and
	smart home application.

Remark	Ambient Light Sensor Proximity Sensor
	Gesture Sensing User Presence Detector >1 Meter

8. Ambarella, Inc.

Website	https://www.ambarella.com/
	solution for human vision and computer vision applications.
	vehicles. Ambarella provides high-resolution, low-power video
Partners	advanced driver assistance systems (ADAS), and fully autonomous
Looking for	Those are interesting in HD and Ultra-HD intelligent cameras,
	description.
	hardware engine programmed with a high-level algorithm
	fundamentally different approach that includes a flexible CV
	with general-purpose CPUs and GPUs, CVflow™ uses a
Technology	deep understanding of core computer vision algorithms.Compared
Core	The CVflow™ architecture, owned by Ambarella, is based on a
	cameras.
	IP security, sports, wearable, drone, and automotive video
	computer vision solutions. Their products are used in a variety of
	(HD) and Ultra HD video compression, image processing, and
Description	Ambarella is a leading developer of low-power, high-definition

9. Generalplus Technology Inc.

Description	Generalplus Technology is the major integrated circuit providers
	worldwide, specializing in voice IC and multi-media product
	solutions. Our microprocessor architectures are capable of being
	adopted in many application fields, including graphical multimedia,
	speech, smart educational toy, and industrial-controlled MCU.
Core	Generalplus strengthen the test and verification phases with the
Technology	high-end workstation, programmable logic component, and
	hardware simulator. They are capable in high-level design logic
	synthesis, circuit simulation & testing, and Automatic Placement &
	Routing (APR).
Looking for	Those are interesting in communication device, remote controller,
Partners	interactive toy, electronic-pet, wearable devices, dashboard
	camcorder, drone camcorder, wireless charger, calculator, kids
	learning aid, touch-control appliance, motor bike, and many
	others. Generalplus offers the most complete and competitive SoC
	solutions to its partners.
