Endorsements by Fellows

We think that Taiwan is an amazing bridge for any entrepreneurs in the world that want to go into mass production or small production with both very good quality. I think we have found something extremely interesting as an entrepreneur, technical, and businesswise.

Jeremie Brabet-Adonajlo & Natanel Partouche
Co-Founders of Pzartech
<http://www.pzartech.com/>

We are surprised that Taiwan companies moves really fast and they are committed to help foreign start-ups with great technology and products in their offering. We see a big opportunity to flourish our business in the 10-day program and we also recommend others to participate.

Chris Georgiev & Georgi Kadrev
Co-Founders of imagga
<https://imagga.com/>

The program could be enormously valued to any high-tech company, that wants to make partnerships with high-technology companies from Taiwan, whether be the partnerships or access to the Asian's market.

Nick Allott
CEO of NQM.AI
www.nqm.ai

I will certainly encourage other companies thinking about moving into the Asia market. This is the great program to be part of. You get the introduction of the senior levels to all of your potential customers and partners who intend to collaborate with your technology.

Seamus Hatch
CMO of Invision AI
Invision.ai

It was really a nice chance for us to meet with potential manufacturing companies and investors. Also, we could experience the culture difference between Taiwan and Europe, and explore the business and investment opportunities.

Wojciech Radomski
CEO Of StethoMe™

<http://www.stethome.com/>

This is a really nice program. We got 1-on-1 meeting with industry experts and manufacturers. They not only gave us advice on how to do business but helping us find the right market. I think Garage+ did a great job on selecting companies that would like to cooperate with start-ups, which is not easy to find.

Philip Michaelides
Co-Founders of Senic
